

Total Land Covered in Watershed

Location of Duncan Creek in Watershed

Disclaimer

This map is intended for general resource planning only, and is not suitable for site-specific analysis. It is a schematic representation of hydrology, landcover, and transportation information. The landcover data depicted on this map was derived from multispectral aerial photography acquired from Space Imaging Inc. Use of this landcover information is appropriate for watershed and county-widescale analyses. It is recommended that for detailed assessment (e.g. parcel-level or block-level), use of the source imagery can provide information that has greater accuracy. This data is preliminary and has not yet been
